STEPS REQUIRED TO DRILL AN OIL OR GAS WELL

PROPERTY OWNER _____
WELL NAME _____ WELL NUMBER _____
DRILLING COMPANY _____
ADDRESS _____
CITY _____ STATE _____ ZIP CODE _____
PHONE NUMBER _____

The following steps are required prior to construction of a new well pad for drilling oil or gas permit.

PLEASE CHECK AS APPROPRIATE

(To the best of your knowledge check expectations - see note below)

- | | |
|---|---|
| <input type="checkbox"/> Oil Well | <input type="checkbox"/> Natural Gas Well |
| <input type="checkbox"/> Natural Gas Well Including Liquids | <input type="checkbox"/> Vertical Well |
| <input type="checkbox"/> Potential of Multiple Well | <input type="checkbox"/> Horizontal Well* |
| <input type="checkbox"/> Planned Multiple Well | |

*If Horizontal, a road use maintenance agreement (RUMA) is required, please see separate template. A RUMA must be signed by the appropriate parties before the Ohio Department of Natural Resources (ODNR) will approve the well permit application.

Note: Pre-existing conditions are not a guarantee of what the well, once drilled will produce. We simply ask the drilling company to check off what they anticipate. We may alter the description of the well(s) for location purposes and documentation, as more information becomes available.

[1] Site Evaluation Date evaluation completed _____

Contact the **Knox County Soil and Water Conservation District** to schedule a site evaluation. The site evaluation includes requirements to comply with the sediment and erosion regulations.
